Each group has a three-week period during which to make an advising appointment. Please make sure that you are advised during the dates for your status above. During priority advising (February 23-April 8), advising appointments are made one day in advance by calling (520) 621-7352 or by stopping by the Film & Television office in Marshall 220. My priority advising hours in Film & Television are generally Tuesday/Wednesday mornings, Thursday/Friday afternoons. Because advising appointments are not available on Mondays, do not call the office on Friday for a Monday appointment.

During priority advising, appointments are filled quickly. You will need to call the office early in the day (i.e., right at 8:00am) to get an appointment on the following day. If you get a busy signal or voice mail at this time, please hang up and redial.

Please become familiar with your UAccess Advisement Report before your appointment: From your UAccess Student Center, click on "My Academics", and then on "View my advisement report". When the report appears, choose "View report as PDF". (You do NOT need to bring your advisement report to your appointment.)

Thanks for your attention -- hope to see you soon!
